Dear Sir/Madam,

I have been closely observing how rapidly technology is evolving and transforming the way we live and work. I truly believe that the future of our world is being built—and will continue to be built—upon new technologies. This belief is the main reason why I am eager to develop myself in this field.

I am confident that working in the technology sector will not only allow me to grow professionally, but also help me acquire skills that are applicable in multiple areas and situations. It is a field that offers both freedom and resilience — an opportunity to work and contribute even under challenging circumstances.

I am highly motivated to learn, improve, and contribute to a field that shapes the future. With persistence and dedication, I believe I can achieve great results and be part of the positive change that technology brings to the world.

Sincerely,
Plamen Svetoslavov
